## Advanced dynamics – 2022/2023

---

### Course syllabus

**Lecturer:**

prof. dr. Miha Boltežar ([miha.boltezar@fs.uni-lj.si](mailto:miha.boltezar@fs.uni-lj.si), tel. 01 4771 608, room 603)

**Assistant:**

assist. prof. dr. Martin Česnik ([martin.cesnik@fs.uni-lj.si](mailto:martin.cesnik@fs.uni-lj.si), tel. 01 4771 227, room DS-P4)

Lectures	Tutorials
Wed.: 14:00-16:00, DS P-1	Mon.: 8:00-10:00, IV/3A

Tutorial recordings will be added to the [course e-classroom](#).

Course webpage is accessible on this [link](#).

---

## 1. Obtaining a degree

---

### Option A: Regular activity during semester

Student can obtain a positive degree with regular activity during semester according to next tables:

Tutorials grade:

Weight	Activity	Min. treshold
0%	Attendance on classroom tutorials	min. 80%
5%	Attendance on lab. tutorials	min. 100%
45%	1. colloquium	min. 40%
50%	2. colloquium	min. 40%
100%	Total sum	min. 50%

Lectures grade:

Weight	Activity	Min. treshold
100%	Written theoretical exam	min. 50%

Grade inscription is possible only in June exam period after successful oral defence of the grade.

#### 1. Colloquium:

Contents: analytic statics, analytic dynamics, periodic and impulse response of SDOF systems

Expected date: 11.-14.4.2023

#### 2. Colloquium:

Contents: 1. Colloquium, dynamics of MDOF systems, dynamics of continuous systems

Expected date: 29.5.-2.6.2023

#### Laboratory tutorials:

- Vibration testing (20.3.2023)
- Analytic mechanics (27.3.2023)
- MDOF dynamic system (9.-11.5.2023)
- Belt oscillations (16. - 18.5.2023)
- Flexural dynamics of a beam (29.5.2023)

### Način C: Classical exam

In the classic exam, there is an exam in exercises (90 minutes) and an exam in theory (60 minutes). In order to take the exam, the student must meet the conditions related to participation in classroom and laboratory tutorials

Weight	Activity	Min. treshold
0%	Attendance on classroom tutorials	80% attendance
0%	Attendance on lab. tutorials	100% attendance
50%	Exam in theory	50%
50%	Exam in exercises	50%
100%	Final result	min. 50%

---
